

THE **RENAULT DUSTER:** EVOLUTION

The best gets better. Check out the all new Renault Duster.

THE SENSATIONAL NEW RENAULT DUSTER

EXPERIENCE IT NOW

IT WAS ALWAYS a sensation. When the Renault Duster first arrived on Indian shores, there was a waiting line just for the test drive. This was followed by a long waiting list for deliveries from all those besotted with it after the test drive. Even today, everyone who has bought a Renault Duster is in love with it. They love how it looks, how it rides, how it drives, its efficiency, its road presence, everything. It changed the game when it was launched. The Renault Duster was exactly what the Indian market was waiting for. Want proof? If you are sitting at a window overlooking a road, look out for the next five minutes. And count how many Renault Dusters you see. Surprised?

The reason for the Duster's

popularity is not hard to see. It's a robust and handsome SUV with a go anywhere capability. And it does so without burning a hole in your pocket. And now there is a new Duster that's ready to storm the Indian market. What's new about it? Let's take a take a closer look.

MEET THE NEW RENAULT DUSTER

How do take something that's loved the way it is and make it better? How do you maintain the familiarity while making it all new? Doesn't sound possible but that's exactly what the new Renault Duster has achieved. There is no mistaking the familiar muscular stance or the butch profile that made the Duster such a favourite.

Experience a comfortable drive with India's first 6-speed Easy-R AMT.

There is no mistaking the muscular stance or the butch profile that made the Duster such a favourite. Yet you can tell its been completely redesigned at first glance.

Yet you can tell it's been completely redesigned at first glance. The square headlights are now more intricately detailed and there's a new dual winged design for the grille as well. The wheels are gun metal finish alloys. Brushed silver cladding with scuff plates at the front and rear enhance the Duster's SUV credentials. Chunky kayak roof rails with the Duster name embossed on them add to the Duster's attitude. New electrically adjustable and foldable ORVMs complete with turn indicators give it a premium mien. Rounding it off are the stylish waterfall LED tail lamps.

A NEW LEVEL OF STYLE

The story continues inside the cabin. While it still feels like it's been built to last forever, it's now laced with luxury. The new crimson-black palette of the

Conquer every terrain. Easily switch from 2WD to 4WD and go anywhere.

cabin is accented with chrome and silver trims. The geography of the control switches has been ergonomically fine tuned. And you can get an automatic climate control that maintains the cabin temperature at the precise level you want. Along with the automatic climate control comes a

seven-inch touch screen MediaNAV system that entertains and navigates while enabling hands-free calling. The screen also doubles up as a reverse camera, to make parking easier. To make things even more comfortable for the driver is an eight way adjustable seat. Speaking of seats, there are now armrests with cup holders, both in front and back. There is also an anti-pinch window system.

GO ANYWHERE

With its 210mm ground clearance, high

Stylish, easy to use and built to take on every adventure. Of course, there's no compromise on comfort.

The seven-inch touchscreen MediaNAV system is very easy to use.

Adjusts for comfort and control.

The Renault Duster comes with a complete suite of technology to keep you safe.

approach and departure angles and 4WD mode, the Duster is designed to take you everywhere from the wildest jungle to the highest mountain. The new Duster takes you one step further. It now comes with six-speed EASY-R AMT to negotiate through the urban jungle and high society. The automatic gearbox allows you to shift to manual when you want more controls in corners or hilly sections. The EASY-R gearbox is the only AMT to feature a Hill Start Assist that makes driving uphill effortless even for green-behind-the-ear drivers.

Long road trips are now easier than ever before. The large 475-litre boot can carry everything you need.

sixth gear allows for effortless cruising. The T4 Electrical & Electronics architecture and a new CMO 10 engine compartment makes this engine super-efficient and super smooth with enough grunt through the power band. The suspension is one of the highlights on the Duster. Handling is surefooted and predictable and the Duster's legendary ability to flatten bad roads is just as good. Put it all together, and you have a hard to beat package. After what we knew about the original Renault Duster, this comes as no surprise.

How good is the new Duster? You won't find the answer in the facts and figures. You won't find the truth in brochures and ads. You won't get an unbiased view from anyone. That is because the only person who can answer it is you. Get all information you can gather, talk to as many people as you can, then go and drive the new Duster at your nearest showroom. You will find your answer.

BUILT STRONG
The Duster was born tough to keep you safe. It comes with a complete suite of safety technology like ABS, ESP and EBD with Brake Assist to keep you in control. And if the worst happens, safety features like airbags and impact-sensing door

unlock activate to keep you out of harm's way.

DRIVE EASY
So what's it like to drive? The EASY-R six-speed gearbox makes it even easier to drive in the stop and go crush of our traffic. On the highway the tall

Park easy with multi-directional sensors.
